## About us

We would like to introduce to you our company **SRAGA ENGG & TECH SOLUTIONS** based in Tamil Nadu, Perambalur, India.

We supply and service of fluid conveyance products to a diverse spectrum of industries ranging from industrial production, food processing, construction, marine, power generation, oil & gas and petro-chemical industries.

**SRAGA ENGG & TECH SOLUTIONS** is a premier provider of innovative engineering and technological solutions, dedicated to transforming challenges into opportunities for growth and success. With a strong focus on precision and excellence, we bridge the gap between advanced engineering and cutting-edge technology to deliver comprehensive solutions that drive progress and efficiency..

### Our Mission:

To deliver top-tier engineering and technological solutions that empower businesses, drive innovation, foster a smarter and more efficient future.

### Our Vision:

To be the leading partner in engineering and technology, recognized for our commitment to excellence, innovation and customer satisfaction.

### Core Values:

- **Innovation:** We embrace creativity and forward-thinking to develop groundbreaking solutions.
- **Precision:** We ensure accuracy and reliability in every aspect of our work.
- **Integrity:** We maintain transparency and honesty in all our interactions and processes.
- **Customer Focus:** We prioritize our clients' needs and work closely with them to achieve their goals.
- **Excellence:** We strive for the highest standards in engineering and technology to deliver exceptional results.

## Services:

### 1. Engineering Solutions:

- Design and Development: Customized design and development services tailored to client specifications.
- Consulting: Expert advice and guidance on engineering projects and processes.
- Project Management: Comprehensive management of engineering projects from inception to completion.

### 2. Technology Solutions:

- Software Development: Development of bespoke software solutions to meet unique business needs.
- Systems Integration: Seamless integration of various systems to enhance operational efficiency.
- Technology Consulting: Strategic consulting to align technology with business objectives.

### 3. Research and Development:

- Innovation Labs: Cutting-edge research facilities dedicated to developing new technologies and solutions.
- Product Development: End-to-end development of new products from concept to market launch.

### 4. Support and Maintenance:

- Technical Support: 24/7 support to address technical issues and ensure smooth operations.
- Maintenance Services: Regular maintenance and updates to keep systems running at peak performance.

## Industries Served:

### • Manufacturing:

Streamlined processes and advanced solutions for improved productivity.

### • Healthcare:

Innovative technology solutions to enhance patient care and operational efficiency.

### • Finance:

Secure and efficient systems for financial management and analysis.

### • Energy:

Sustainable and efficient engineering solutions for the energy sector.

### • Telecommunications:

Advanced technology for reliable and high-performance communication systems.

# PRODUCTS

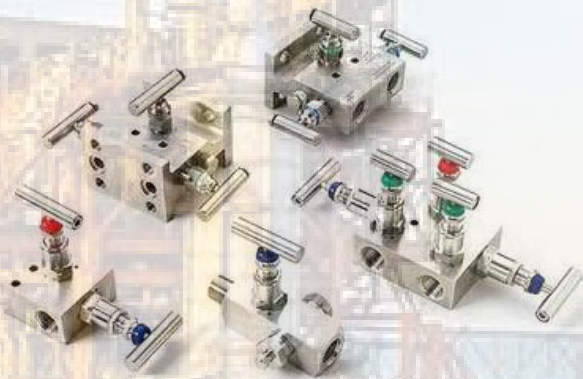

## SS TUBE FITTINGS

## VALVES

## MANIFOLDS

## FILTERS

## HYDRAULIC VALVES

## HYDRAULIC HOSES

# PRODUCTS

HYDRAULIC CLAMPS

FLANGES

DOWTY WASHERS

HYDRAULIC SEALS

HONING TUBES

CHROME RODS

# PRODUCTS

## BEARINGS

## TRANSMISSION

## LIMIT SWITCHES

## SENSORS

## PNEUMATIC CONNECTORS

## GAUGES

# PRODUCTS

## INDUSTRIAL FASTENERS

## PIPE FITTINGS

## END CAPS

## ELECTRIC & HYDRAULIC WENCHES

## CUSTOMIZED COMPONENTS

## INDUSTRIAL TOOLS & MACHINERIES

## **FACILITY EXPERTISE:**

- **OIL & GAS**
- **MANUFACTURING**
- **MARINE**
- **PHARMA & DAIRY**
- **FOOD & BEVERGAE**
- **HOSPITALITY**
- **MEDICAL FACILITY & LABORATORIES**
- **COMMERCIAL KITCHEN & RESTAURANTS**
